Clause 6 of Schedule 1, Resource Management Act 1991

To: Timaru District Council

Name of submitter:

Rodney & Tania Coles
[State full name]

This is a submission on the following proposed plan or on a change proposed to the following plan or on the following proposed variation to a proposed plan or on the following proposed variation to a change to an existing plan) (the 'proposal'):

He Po. He Ao ka Awatea
[State the name of proposed or existing plan and (where applicable) change or variation].

I could/could not* gain an advantage in trade competition through this submission.
[*Select one.]

*I am/am not directly affected by an effect of the subject matter of the submission that—

- (a) adversely affects the environment; and

The specific provisions of the proposal that my submission relates to are: [Give details]

for amendments to SASM17, SASM17
SASM - R6 - Oppose

My submission is: [Include whether you support or oppose the specific provisions or wish to have them amended; and reasons for your views]

[If your submission relates to a proposed plan prepared or changed using the collaborative planning process, you must indicate the following:

- Where you consider that the proposed plan or change fails to give effect to a consensus position and therefore how it should be modified; or
- In the case that your submission addresses a point on which the collaborative group did not reach a consensus position, how that provision in the plan should be modified.]

Section: SCHED6 - Schedule of Sites + Areas of
Significance to Kati Huirapa
Sub-section SCHED6E - Wai tapu areas

SASM17 - Awara Stream on ^{air}place, this is dry for much of the year only flowing when there is heavy rain. To have a rule which applies to the whole Awara Stream is not reasonable.

SASM17 - The areas of interest should be completely accurate as should the areas of significance and the reason for this is so they can be protected. By blanketing whole properties this effectively devaluing the land.

Our land follows the Opuka river and does not have any streams running into the Kakahu river.

I seek the following decision from the local authority: *[Give precise details as this is the only part of your submission that will be summarised in the summary of decisions requested]*

We are 4th Generation on this land and are farming it in a sustainable manner and will continue to do so making improvements as we can.

By blanketing the whole area including our property it appears lazy. The specific areas of significance need to be identified so they can be protected and cared for, rather than an entire blanket approach.

The farming sector has been bomb-barded with so many changes and regulations and here is yet another set of stressful rules which is not fair & reasonable and is detrimental to health and well being.

I wish (or do not wish) † to be heard in support of my submission.

*[*In the case of a submission made on a proposed planning instrument that is subject to a streamlined planning process, you need only indicate whether you wish to be heard if the direction specifies that a hearing will be held.]*

[†Select one.]

***If others make a similar submission, I will consider presenting a joint case with them at a hearing.**

*[*Delete if you would not consider presenting a joint case.]* **yes**
