This is a submission on the Proposed Timaru District Plan (the Proposed District Plan)

Introduction/Background

Thank you for the opportunity to submit on Proposed Timaru District Plan - He Po. He Ao. Ka Awatea.

The Ministry of Education (the Ministry) is the Government's lead advisor on the New Zealand education system, shaping direction for education agencies and providers and contributing to the Government's goals for education. The Ministry assesses population changes, school roll fluctuations and other trends and challenges impacting on education provision at all levels of the education network to identify changing needs within the network so the Ministry can respond effectively.

The Ministry has responsibility not only for all State schools owned by the Crown, but also those State schools that are not owned by the Crown, such as designated character schools and State-integrated schools. For the Crown-owned State school, this involves managing the existing property portfolio, upgrading and improving the portfolio, purchasing and constructing new property to meet increasing demand, identifying and disposing of surplus State school sector property and managing teacher and caretaker housing.

The Ministry is therefore a considerable stakeholder in terms of activities that may impact on existing and future educational facilities and assets in the Timaru District.

The specific parts of the Proposed Timaru District Plan that the Ministry's submission relates to are the proposed definitions and provisions that either directly or indirectly have the potential to impact on the Ministry's interests and ability to achieve its purpose within the Timaru District.

The Ministry's submission is:

The Ministry has a particular interest in the parts of the Proposed District Plan that, either directly or indirectly, have the potential to impact on the Ministry's interests, such as the management and operation of existing educational facilities or the establishment of new educational facilities.

The provisions that most directly impact on the Ministry are the draft definitions and the provisions relating to strategic directions, transport, natural hazards, subdivisions and the activity statuses of educational facilities throughout the various zones.

The specific amendments, additions or retentions to the Proposed District Plan sought by the Ministry are listed in **Appendix 1** to this feedback. In addition to the details in **Appendix 1**, the following general comments have been made on zoning changes:

1. Zoning Changes and Urban Growth

The Ministry notes that various draft changes are proposed to the zoning of land throughout the District, in some instances providing for more enabling provisions for growth and in others, such as in rural zones, reducing the risk of urban sprawl. Changes in zoning have the potential to result in changes in development and in the size and demographic of residents throughout the District, which can consequently impact on the capacity of educational facilities. The Ministry acknowledges the changing nature of zoning and development within a district as part of the district plan process, however requests that schools and educational facilities are enabled as part of urban growth and development and are considered in any zoning changes made.

Council has an obligation under the National Policy Statement for Urban Development to ensure sufficient additional infrastructure (which includes schools) is provided in urban growth and development (see Policy 10 and 3.5 of Subpart 1 of Part 3: Implementation, in particular). Ministry seeks enabling provisions for educational facilities to achieve this outcome.

The provision for educational facilities within several zones is relatively prohibitive, with educational facilities being non-complying activities or subject to unnecessarily restrictive activity standards.

The Ministry seeks the following from the Timaru District Council:

That the requested amendments, additions, or retentions to the draft District Plan, as set out in **Appendix 1**, be considered prior to the Proposed District Plan being notified. The relief sought is shown in red underline and ~~red strikethrough~~.
