South Island IQP Panel June 2024 Newsletter

Chairpersons Blog

We had a very successful meeting with answering questions from both IQP's and TA Officers all of which are available to the online representatives for comment and consideration.

The monthly IQP approvals appear to be successful with no applications requiring further discussion which might very well be a first in my 18 odd years of attending.

Christchurch City presented a number of items relating to both the constitution and hearing panel with recommendations that we re-look at these.

Many thanks to Southland for picking up the Hearing's review and thanks to the panel for spending several hours on review of the constitution which we have been able to put into a draft form for members to review at the next meeting.

Murray also promoted the idea of some form of training which could include a multitude of things to accompany re-registration of IQP's which the panel thought was a great idea.

It's great to see contributions from attendees and with the online application approvals, we now have time to review some of the matters that have been pushed to the side.

We had two North Island Panels represented at the meeting which is quite wonderful and brings a fresh perspective to us.

Winter is upon us so drive carefully out there and please remember both Mary and I are available should you wish to discuss anything.

Kind Regards

Greig Wilson

New NZQA Accredited Backflow Course & Refresher Course Available

The ABC Team are now running Backflow Prevention Courses

IQP Backflow Prevention Course

This is our new course for those wanting to get the unit standards for Backflow Inspection. These will assist you in your registration for an IQP. The course has an online component and 2 days on-site training, 2 consecutive Fridays starting on the 5 July.

The course is on Friday 5 July and 12 July at Aqualine, 7 Winston Place, Henderson, Auckland. [Register here](#)

SS7 Automatic Back Flow Preventers Refresher theory and practical

This is a refresher course for those who already have knowledge in Backflow prevention and want to keep up to date with the latest testing and equipment methods and industry knowledge.

This course is on Friday 12 July at Aqualine, 7 Winston Place, Henderson, Auckland. [Register here](#)

I'm sure if there was enough demand South Island courses would be an option – contact admin@abcqip.org.nz for more information

From the IQP Panel

The Panel are looking at establishing a Code of Conduct for IQP's along similar lines of the Licensed Building Practitioners.

This will be discussed at the ABC Conference – Please feel free to contact Brian Wilson or Ryan Cooper from Christchurch City Council if you have any feedback regarding this process.

An IQP code would be part of a toolbox for IQP's.

The code would potentially cover: -

- Work safety
- Acting within the law
- Taking responsibility for actions
- Behaving professionally
- Inform and educate clients.
- Conflicts of interest
- Skills maintenance – some form of continued professional development verified at renewal time.

Section 110 Building Act 2004 - Annual Reports

With more Council's carrying BWOA audits it is becoming apparent that these reports are not being completed as required.

While Section 110 states it is the responsibility of the owner to obtain the annual report, most will need education and support on this.

Many owners are already keeping the appropriate records but are not collating into an annual report.

This was also an issue that was raised at the 2023 ABC conference in an audience Q & A session.

Possible solutions

- Make an annual report template as a part of an IQP/BWOF toolkit.
- S-Rad form could be used as a base document for an annual report.
- Make the annual report a part of the BWOF renewal process, and have it submitted with the BWOF annually.
- Continued education of owners and IQP's.
- Develop an annual report template.
- Write compliance schedules that clearly identify the requirement for an annual report and differentiate between an annual report and a form 12a.
- MBIE guidance on this topic would be useful.

In the meantime – please work with your building owners with producing these reports.

NB: For IQP's the annual report is a good tool to report to the owner for ongoing maintenance, upgrades, and replacement of systems. Also reports on what you have done, and what needs to be done. Used well, the annual report could be a godsend if something went wrong.

Some reminders and important information

110 Owner must obtain reports on compliance schedule

An owner of a building for which a compliance schedule has been issued must—

- obtain annual written reports relating to the inspection, maintenance, and reporting procedures of the compliance schedule signed by each independently qualified person or other person who carried out 1 or more of those procedures; and
- keep those reports, together with the compliance schedule, for a period of 2 years; and
- produce those reports for inspection, when required, by—
 - the territorial authority; and
 - any person or organisation who or that has the right to inspect the building under any Act; and
- show the location of those reports and the compliance schedule on the building warrant of fitness displayed in accordance with [section 108\(4\)](#).

Compare: 1991 No 150 s 45(3)

Section [110\(a\)](#): amended, on 13 March 2012, by [section 49](#) of the Building Amendment Act 2012 (2012 No 23).

Section [110\(a\)](#): amended, on 15 March 2008, by [section 25](#) of the Building Amendment Act 2008 (2008 No 4).

Note: Inspection and maintenance reports can make up part of the annual written reports. Log books and test certificates are part of the record keeping.

Not all inspections need to be carried out and recorded by an independent qualified person. For example, the daily and monthly inspections of final exits on escape routes can be undertaken by the owner/tenant/contractor/agent – but the annual inspection must be by an independent qualified person.

There is no regulated form for the annual report however, the Building Act states the owner shall obtain annual reports.

Attention: SS2 IQP's –

SS2 has been split into 3 subsections from simple 4512 systems to more complex ones and then the third subsection for all other non 4512 systems.

For existing SS2 IQP's, I have started with the February renewals sending out the SS2 declaration. Please take some time and make sure to complete this information and send it back with your annual renewal form.

SS2.1*	Automatic or manual emergency warning systems for fire or other dangers Subsection 1 – Simple fire alarm systems
SS2.2**	Automatic or manual emergency warning systems for fire or other dangers Subsection 2 – Complex Fire Alarm systems
SS2.3***	SS2/3: Automatic or manual emergency warning systems for fire and other dangers Subsection 3 – Warning systems for dangers other than fire

General administration/Reminders

Changes to the frequency of getting applications assessed and approved.

The South Island IQP Panel is going to be assessing applications on a more regular basis. 😊
This means, an application doesn't have to wait for a Panel Meeting, so send those application in!

This will provide a more efficient service for IQP applicants.

Please note the application form has been updated.

Any new applications will need to be made on this form.

You will know who you are as the TDC accounts team will have been chasing you, so please don't email me to ask if you are one for the sake of it.

When paying accounts – please quote the Particulars, Code and Reference, that are written on your invoice.

Please Help me to Help You 😊

Annual Renewal Letter

This is sent with your annual renewal invoice – PLEASE - fill it out and return it to me.

Scanning and emailing it is fine. Your renewal will not be processed without it!

No renewal form = no certificate

When you leave a job, change employer, change postal address or are planning to retire, please notify me. I am wasting a lot of time trying to track people, deal with bouncing e-mails, and crediting invoices 😞

Reminder – these are for missed inspections – NOT for systems that need repairs.

None of us involved in the Building Industry wish to be in the position of being involved in considering a Building “Dangerous” in event of a fire due to failure of a specified system.

Some Words of Wisdom

Clear documentation of the compliance path of specified systems takes the guess work out of decision of compliance.

Reminders for those applying for additional systems and first-time applicants.

Application form

Please make sure you are applying on the **correct version** of the application form – all IQP forms are available on the Timaru District Council Website.

<https://www.timaru.govt.nz/services/building/independent-qualified-persons>

Applications to become IQP registered: Please take care when completing applications and remember the more **relevant** information the better, therefore facts and supporting documentation is important.

You can provide photographic evidence to support your knowledge, this will clearly demonstrate that you can identify what complies and what doesn't. This information will the reviewer plenty of confidence in an applicant, making the approval decision an easy one.

Applications were declined for:

- ***Detail of Work Experience***

Your work history needs to be **descriptive** and **complete** – remember you are selling your skills and experience to the Panel.
