- **No**

Are you directly affected by an effect of the subject matter of the submission that

(a) adversely affects the environment; and

(b) does not relate to trade competition or the effects of trade competition

- **N/A**

Submission points

Point 37.1

Section: SASM – Sites and Areas of Significance to Maori

Sentiment: Oppose

Submission:

We strongly oppose all of this section as no maori people have owned or farmed here for at least 150 years so what gives them the right to come onto our land and gather food etc.

Pig Hunting Creek runs through our farm and only flows when it is an extremely wet season. Most of the time the creek is dry. What food are the Maori going to gather from this dry creek ?

In these times when Health and Safety are paramount, what if something happens to them while on our land ?

The Maori are not native to New Zealand ,the Moriori were here first.

Our family has farmed in South Canterbury for over 100 years . When does our ancestry start?

What on earth is happening in New Zealand !! Whats next !!

Relief sought

Oppose all SASM

Point 37.2

Section: GRUZ – General Rural Zone

Sentiment: Oppose

Submission:

The Eggleton family has been farming in South Canterbury for over 100 years and now the council wants us to have a consent to farm from them, as well as Ecan. Why?

Is this bureaucracy gone mad . As farmers we look after our land and stock ,myself over 45 years and now someone wants to tell us what we can and cant do on our land. We want to pass our land on to the next generation but fear that you are making everything so hard for the farmer who just wants to be a good farmer .

Every farm is different, so a general consent wont work. What is the cost of this to administrate?

Relief sought

oppose GRUZ
