

ELEV 1575

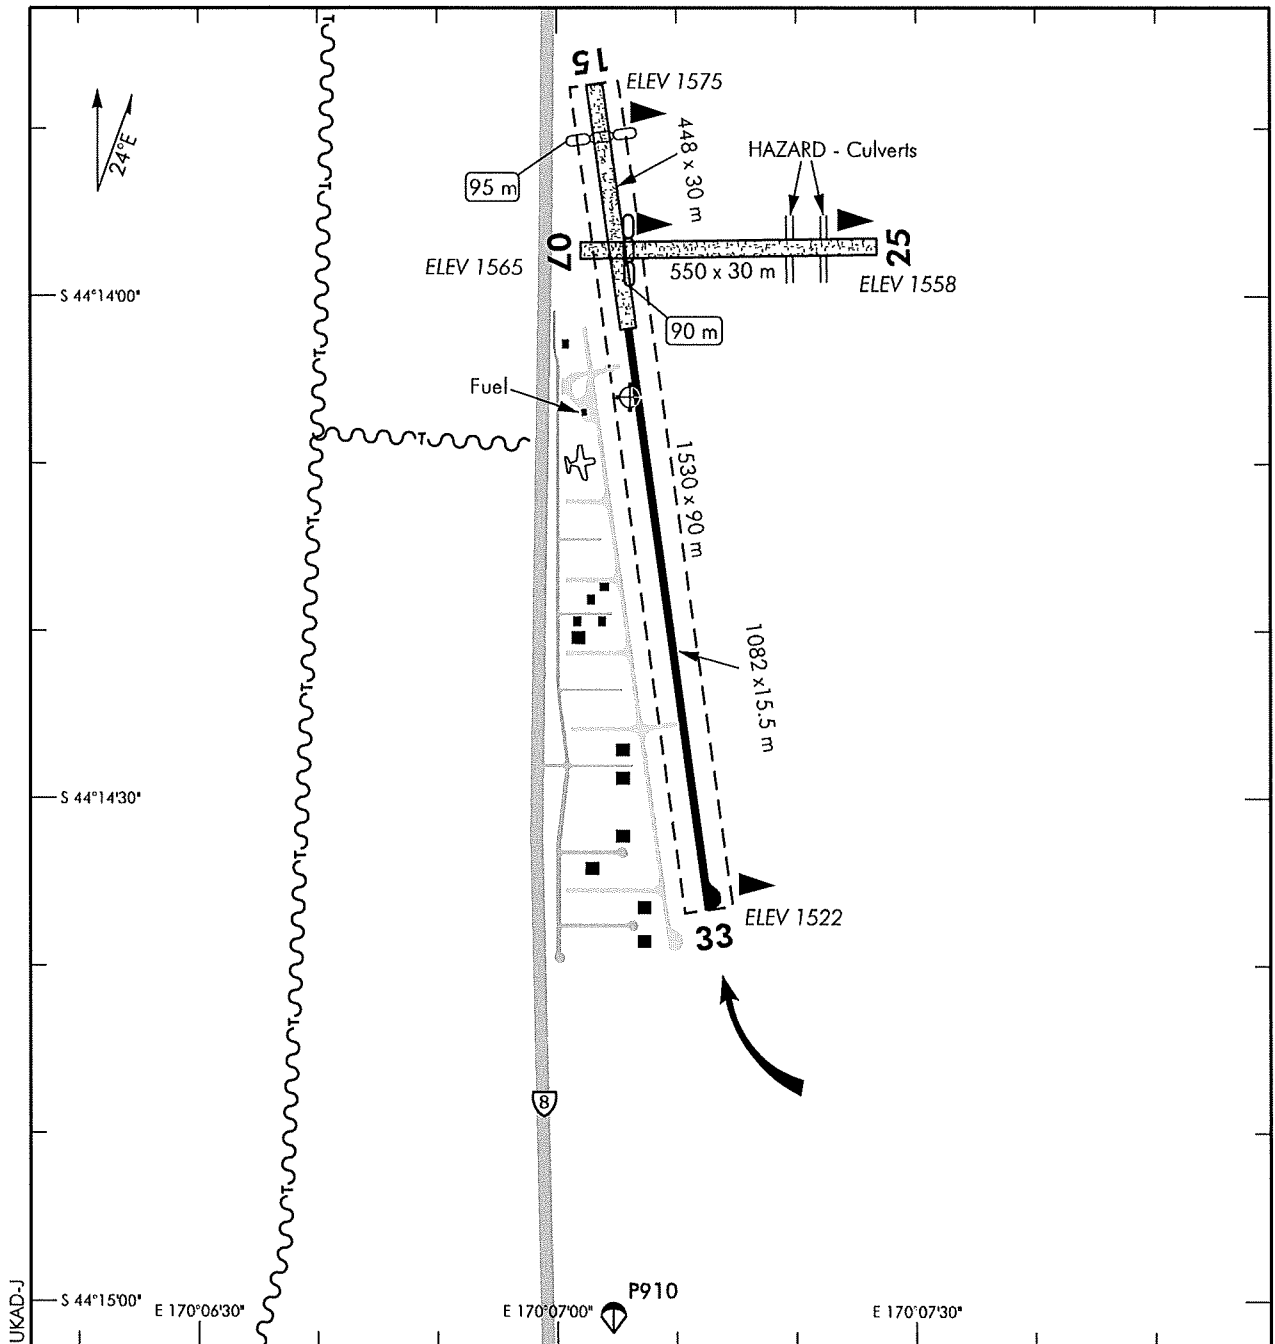

NZUK

NON-CERTIFICATED

CHRISTCHURCH INFORMATION: 123.5

PUKAKI**AERODROME (1)**

UNATTENDED: 119.1

Changes from 22 APR 21: Notes amended and renumbered, light aircraft parking relocated.

- D**
1. Take-off RWY 33 — Turn right 20° crossing northern aerodrome boundary.
 2. Grass surface may soften during thaw.
 3. **CAUTION:** Occasional parachuting operations.
 4. Extensive daily parachute operations take place over Pukaki AD year round from surface to 17000 ft. Pilots should avoid using the overhead join procedure while parachuting is in operation. PLA located 900 m south and 200 m west of centreline of RWY 33. Parachute activity will be broadcast on 119.1 MHz. If unsure, communicate directly with parachute aircraft for safety.
 5. Due to parachute operations, no NORDDO is permitted without prior approval of Airport Operator.
 6. There is NO parallel grass runway adjacent to the sealed portion of RWY 15/33.

(continued)

Effective: 20 APR 23
